

MediGuard Health Plan — Fee Schedule 2024

Allowed Amounts and Patient Cost-Sharing | Effective January 1, 2024

This fee schedule establishes the maximum allowed amounts for covered procedures under the MediGuard PPO plan. Patient responsibility is calculated based on the allowed amount after application of the annual deductible (\$500 individual). The out-of-pocket maximum for the 2024 plan year is \$6,000 per individual and \$12,000 per family.

Payment Methodology

Allowed amounts are based on the Medicare Physician Fee Schedule (MPFS) with a conversion factor of 1.35x for in-network providers. Facility rates apply when services are rendered in a hospital outpatient department or ambulatory surgery center. Non-facility rates apply to physician office settings. Patient responsibility reflects estimated out-of-pocket cost after plan coverage is applied, assuming the annual deductible has been met.
